PROJECT NAME	Angry Octopus Appointment System		
CLIENT	Joms Hasan		
DURATION	3 Months		
START DATE		END DATE	
DESCRIPTION			
<p>The "Angry Octopus Appointment System " aims to make the appointment scheduling procedure easier. The system is designed to satisfy the requirements of companies and institutions that need a dependable and effective approach to handle customer reservations. Rearranging, canceling, and creating appointments is made simple by the system's user-friendly interface, which is accessible to both administrators and clients.</p>
